## Assignment No 13.2 and 13.3

### Vineet Bhardwaj

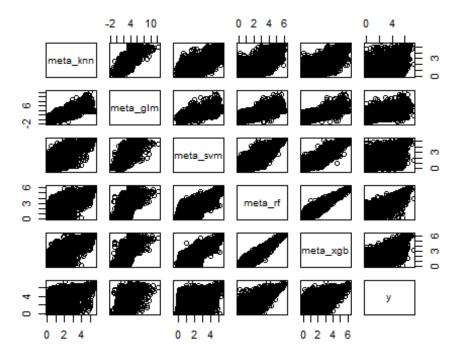

### 19 February 2019

```
#ASSIGNMENT NO # 13.2
#a. Create a linear regression model to predict the number of comments in the
next 24 hours (relative to base time).
#b. Fine tune the model and represent important features Visualize the datase
t and make inferences from that.
#c. Interpret the summary of the linear model.
#d. Report the test accuracy vs. the training accuracy
#ASSIGNMENT NO # 13.3
#a. a. Interpret the final model coefficients.
#b. Plot the model result and compare it with assumptions of the model
